

## ON THE WAY TO PLANETPROOF FEE LIST

**The fees listed below refer to the contributions which must be paid to SMK through the certification bodies. These fees do not include the costs which the certification bodies charge to certificate holders for audits and certification. For an indication of these costs, you can request an offer from the certification body/bodies.**

The fees consist of a one-time registration fee for new businesses receiving certification and annual fees. Both the registration fees and the annual fees are charged to the certificate holder by the certification body.

### 1) Registration

#### 1.1) Registration fees

The registration fees are charged in the year in which a business is certified under On the way to PlanetProof.

#### 1.2) Re-registration after deregistration

Businesses that re-register for and receive certification within twelve months of having deregistered do not need to pay registration fees for the re-registration to SMK. This applies to both independent certificate holders and businesses belonging to a supply chain management participant that are transferred to another supply chain manager or that become individual certificate holders. If there are more than twelve months between deregistration and re-certification, registration fees will be charged.

#### 1.3) Group registration

If a group of companies applies jointly at a certification body, they will be charged a group registration fee and a registration fee per participant.

A group is defined as:

- A certificate holder (Supply Chain Manager) with participants
- A partnerships of companies (such as within an association, a foundation, or a joint project) if the fees are paid through a single organisation

### 2) Annual fees

Annual fees are owed in the calendar year or portion of a calendar year in which the company obtained the certificate. In the case of group participants, annual fees are owed in the calendar year or portion of a calendar year in which the participant is affiliated with a certificate holder.

These fees are based on the entire (100%) size/production of the certified products, per product category. This applies to all certification schemes. For instance, if a certificate holder has 6 hectares of tomatoes with On the way to PlanetProof certification, of which 2 hectares are sold as On the way to PlanetProof tomatoes, the fee will be based on 6 hectares.

#### 2a) Fee boxes

A certificate holder always pays first payment on the first box, then on the second, and/or third. As an example: 110 hectares potatoes certified for On the way to PlanetProof of which the first 20 hectares is calculated on the basis of the first box, plus 80 hectares on the basis of the second box, plus 10 hectares on the third box.

For group registrations (partnerships and supply chain management) the entire turnover/production of all group participants is calculated via the fee boxes, and a graduated scale is applicable, see the table group fees.

### 3) Deregistration fees

If a certificate holder deregisters for On the way to PlanetProof certification after 1 January, the full fees for that calendar year will be charged. However, if the certificate holder deregisters before 1 June and can prove in writing that no On the way to PlanetProof certified products were produced and/or traded in that year, the certification body will charge the certificate holder 50% of the fees. In the case of fees depending on sales, this amount will be based on the fees paid in the previous year.

3rd box: from 20,000,001 kg	0.0005	
Certificate holder who only <u>portions</u> (and packages) a processed product <sup>4</sup>		500.00
<u>Retailer</u> per location (direct delivery to end user)		150.00
<u>Supermarket</u> with several branches		
Annual fee per:		
- headquarters		600.00
- webshop		600.00
- other locations		30.00
TRADE CERTIFICATION*		
<b>Registration</b>	One-time application fee	250.00
<b>Trading</b> (buying and selling On the way to PlanetProof processed products)	Annual payment of the certified On the way to PlanetProof product (with or without logo):	
	0 to 10,000,000 Euro turnover	600.00
	10,000,001 to 50,000,000 Euro turnover	1,200.00
	50,000,001 sales and more	2,400.00

\* There is no starting rate for trade and retail certification. Definition Trade and retail: wholesaler, trade, supermarkets and other shops / retail trade, catering, food service

<sup>1</sup>In the course of 2021, On the way to PlanetProof will also become the new name for Milieukeur Processed and Processed Products. Until official announcement, hallmark holders can choose between both logos to apply to packaging and in communications. Online information is currently only communicated via the On the way to PlanetProof websites ( [www.planetproof.eu](http://www.planetproof.eu) - [www.planetproof.nl](http://www.planetproof.nl) )

<sup>2</sup>A statement from a chartered accountant may be requested regarding the turnover / quantity of certified product delivered in a particular calendar year. The certificate holder may choose which accountants firm will draw up the accountant's statement and pays the costs for the statement.

<sup>3</sup>Sales (in kg) of the certified On the way to PlanetProof product (with or without logo). If a processor makes liquid dairy products and cheese, the number of kg of cheese x10 may be included in the sum of the number of kg of liquid dairy products.

<sup>4</sup>This fee only applies if the company that portions the product is independently certified and buys the product / semi-finished product from a processor who is also certified. If one company carries out several links (independently or via a service provider), only the highest payment applies. For example, if a cheese maker has its own ripening location and packs it himself, then only the payment based on kg of cheese applies.
